ADDENDUM #1

DATE: June 20, 2016
TO: All RFP Recipients
FROM: Christa Battaglia, Purchasing Supervisor
RE: Bid #2016-26 Purchase of Bus Cameras

The Lee's Summit R-7 School District is issuing an Addendum to provide all interested proposers with the information below. Questions are represented with the letter Q; Answers are represented with the letter A; Statements for Clarification are represented with the letter S.

- Q: Line Item 32 – Please clarify your meaning of “Read Only Software for Building Administrators”.
A: If any specialized software is needed for administrative staff to view & hear video at the building level.
Q: Please clarify total number of cameras required per system on the 8-channel and 13-channel option.
A: Full system will be 8 or 13 cameras as shown on Form No 6, Specifications and Pricing. DVR & Wi-Fi only – no cameras. See below.

Pricing			
		8 Camera System	13 Camera System
Full System, including Cameras & Wi-Fi Cost per System	1 system purchased:		
	5 systems purchased:		
	10 systems purchased:		
		8 Camera System	13 Camera System
DVR & Wi-Fi only, using current Cameras Cost per System	1 system purchased:		
	5 systems purchased:		
	10 systems purchased:		

- Q: Please advise required installation locations for each camera.
A: Please disregard the installation mentioned in the title of the RFP. That should have been stricken before it went out. The District will be doing the installation in-house. No installation by the vendor will be required.
Q: Line Items 34/35 – Within the RFP, is Lee's Summit requesting proposals for a complete wireless solution, which allows for the wireless download/transmission of video files through a Wi-Fi network?
a) Is this to include ALL network infrastructure (wireless access points, wireless bridges on buses, wireless video management software, etc.) and certified engineering services?
b) If you are not requesting the associated parts for a complete wireless solution, please clarify your expectations (ex. is Lee's Summit using existing access points within their network or should these be supplied by the awarded vendor)?
A: The District IT department is handling District items. Provider is responsible for Bus items and any vendor specific needed software to manage. The District is installing access points throughout the parking lot. The IT department has specifics.

Q: Is your intention to do all 155 buses within the 5 years or less? Divide that out and you get an average of 31 buses a year obviously dependent on available funds so you still need pricing for 1, 5 and 10 units.

A: The goal is to replace all in the next 5 year, but no commitment. The number and timing is dependent on funding.

Q: Would you like to see the cost of implementation of entire project on the provided pricing sheet?
Currently no spot for that.

A: No

S: The RFP closing date remains the same: July 1, 2016 at 3:00 pm, CST.

THE UNDERSIGNED HEREBY:

Certifies that he/she is an authorized agent of said company and has the authority to legally enter into a binding Service Agreement. This entire Addendum and all attachments must be submitted with the RFP proposal by the deadline.
