Bid #2019-20 Drinking Water Service Testing Questions:

1. As an Environmental Testing Company we need to assure the District the most accurate test results. To assure this, can the Testing Company take the water samples at all the schools? **The original thought of District employees taking water samples for testing was due to logistics and cost. The District does however realize that to a Testing Company control in testing is the most important concern to ensure accurate test results. The Testing Companies may include a price for taking water samples at all District sites. In addition, a revised bid form (Form No. 2 Pricing), is included with this Addendum No. 2 with a line item #4 for cost per water sample for taking water samples at all District sites and testing for Lead and Copper in an annual total of 1500 to 2000 water samples. This new bid form (Form No. 2 Pricing), supersedes previous bid forms.**

FORM NO. 2: PRICING: Drinking Water Testing Services

Based on all items included in RFP:

DESCRIPTION OF SERVICE	
1. Cost <u>per water sample</u> for testing for Lead and Copper in an annual total of 1500 to 2000 water samples delivered to Companies laboratory.	\$
